

## Affinity Resolutions Ltd – meet Suzanne and Bernard

We are two colleagues and friends who met during the course of our legal careers over 20 years ago.

In 2017, we moved on from the law to establish Affinity Resolutions - a company with a unique outlook and vision, bringing expertise and support to businesses and organisations throughout the UK.

One of our core areas is working with groups like NARBTPO bringing services and benefits to the organisation and its members from specialist Service Providers.

We can often negotiate a special member's package which usually cannot be found on the high street and can only be purchased through membership.

Before introducing a Service Provider, we carry out due diligence to ensure both the product and the service is what members would expect.

We are delighted to be bringing to you:

- Motor Source who supply new cars and car leasing to retired police officers at a discount and
- Gordon Brown Law Firm which offers special packages on many legal products including Wills, Lasting Powers of Attorney, and special rates for members on other legal areas such as Family Law. In addition, the firm has created special members' rates for Buying and Selling a property.

Throughout 2019, with the agreement of your Executive, we hope to introduce many more services and benefits adding value to your membership.

Suzanne Lurie and Bernard Seymour, Affinity Resolutions Ltd
